

# CONFINED SPACE TRAINING

## What is confined space training?

Confined space training equips individuals with the knowledge and skills to safely work in or around confined spaces, such as tanks, silos, and storm water systems.

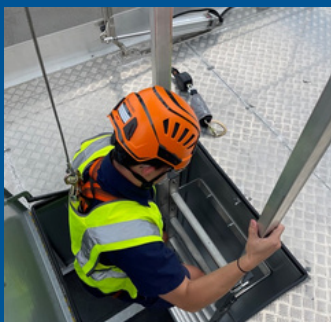

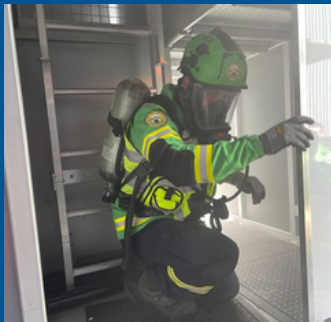

## Why is it important?

Certification in confined space training is crucial for preventing accidents, ensuring regulatory compliance, and safeguarding the health and safety of workers in potentially hazardous environments.

## Courses available:

- Confined Space Entry
- Confined Space Entry & Gas Testing
- Confined Space Entry & Rescue
- Confined Space Supervisor
- Confined Space Supervisor & Rescue
- Gas Test Atmospheres
- Breathing Apparatus
- Confined Space Rescue

# CONFINED SPACE ENTRY

**RTO #41312**

1 day minimum requirement  
for all workers entering and  
working in confined spaces

## STATEMENT OF ATTAINMENT

## 1 DAY TRAINING

### 3 KEY UNITS OF COMPETENCY

#### **RIIWHS202E**

**Enter and work in confined spaces** which is the minimum requirement for all workers entering and working in any confined space.

#### **MSMPER200**

**Work in accordance with an issued permit** provides understanding and training on how permit systems work and to maintain a safe and compliant workplace.

#### **MSMPER202**

**Observe permit work** allows the workers to act as the standby/spotter to ensure all workers inside the confined space are safe and conditions of the work permits are followed.

## Confined space entry course - For all workers

This 1 day course is the minimum requirement for all workers entering and working in confined spaces.

### Key Skills and Knowledge:

Confined space entry training course Day 1 includes these 3 key units of competency:

- RIIWHS202E Enter and work in confined spaces
- MSMPER200 Work in accordance with an issued permit
- MSMPER202 Observe permit work

### Duration & Delivery Options:

- Face-to-face: 6 hours
- Blended learning: Online theory + face-to-face practical (ask our team for info)

There is no prerequisite for this course.

Course includes both theory and practical assessments.

### Certification and Outcomes

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

### Do I require training to carry out works in a confined space?

If your work involves entering or working in a confined space, you must have the appropriate training to meet WHS requirements. At Platinum Safety and Training, we make it simple to choose the right confined space course for your role and industry needs.

# CONFINED SPACE ENTRY + GAS TESTER

**RTO #41312**

Fundamental training for confined space entry, along with the capability to serve as a standby person and perform gas testing operations.

## STATEMENT OF ATTAINMENT

## 1 DAY TRAINING

### 4 KEY UNITS OF COMPETENCY

#### **RIIWHS202E**

Enter and work in confined spaces

#### **MSMPER200**

Work in accordance with an issued permit

#### **MSMPER202**

Observe permit work

#### **MSMWHS217**

Gas test atmospheres

**BE SAFE WITH PLATINUM**

## **Confined space entry + Gas testing - For workers & standby person**

This 1 day course is for confined space entry training and to act as the standby person + Learn to conduct gas testing and atmospheric monitoring operations.

### **Key Skills and Knowledge:**

Course includes these 4 key units of competency:

- RIIWHS202E Enter and work in confined spaces
- MSMPER200 Work in accordance with an issued permit
- MSMPER202 Observe permit work
- MSMWHS217 Gas test atmospheres

### **Duration & Delivery Options:**

- Full face-to-face: 8 hours
- Blended learning: Online theory + face-to-face practical (ask our team for more info)

There is no prerequisite for this course.

Course consists of and includes both theory and practical assessments.

### **Certification and Outcomes:**

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

### **Do I require training to carry out works in a confined space?**

If your work involves entering or working in a confined space, you must have the appropriate training to meet WHS requirements. At Platinum Safety and Training, we make it simple to choose the right confined space course for your role and industry needs.

# STATEMENT OF ATTAINMENT

# CONFINED SPACE ENTRY & RESCUE

## 5 KEY UNITS OF COMPETENCY

### **RIIWHS202E**

*Enter and work in confined spaces*

### **MSMPER200**

*Work in accordance with an issued permit*

### **MSMWHS216**

*Operate breathing apparatus*

### **PUASAR025**

*Undertake confined space rescue*

### **MSMPER202**

*Observe permit work*

**RTO #41312**

*Allow workers to operate in confined spaces, standby duties, use breathing apparatus, and conduct rescue operations.*

# 2 DAY TRAINING

## **2 Day - Confined space worker & rescuer training course - For workers & Confined space standby rescuer**

This 2 day training course is for anyone who works in and around confined spaces and also requires to act as the standby operator and in the event of an emergency, carry out confined space rescue including the use of breathing apparatus.

### **Key Skills and Knowledge:**

Confined space worker/rescuer 2 day training course includes these 5 key units of competency:

- RIIWHS202E Enter and work in confined spaces
- MSMPER200 Work in accordance with an issued permit
- MSMPER202 Observe permit work
- MSMWHS216 Operate breathing apparatus
- PUASAR025 Undertake confined space rescue

### **Duration & Delivery Options:**

- Face-to-face: 2 days - 8 hours per day
- Blended learning: Online theory + face-to-face practical (ask our team for info)

There is no prerequisite for this course.

Course includes both theory and practical assessments.

### **Certification and Outcomes**

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

### **Do I require training to carry out works in a confined space?**

If your work involves entering or working in a confined space, you must have the appropriate training to meet WHS requirements. At Platinum Safety and Training, we make it simple to choose the right confined space course for your role and industry needs.

# CONFINED SPACE SUPERVISOR

CONFINED SPACE ENTRY +  
STANDBY + GAS TESTER + PERMIT  
ISSUER

**RTO #41312**

Training course for anyone who works in and around confined spaces and also requires to supervise and control the confined space.

### 7 KEY UNITS OF COMPETENCY

#### **MSMWHS201**

Conduct hazard analysis

#### **RIIRIS201E**

Conduct local risk control

#### **MSMPER300**

Issue work permits

#### **RIIWHHS202E**

Enter and work in confined spaces

#### **MSMPER200**

Work in accordance with an issued permit

#### **MSMPER202**

Observe permit work

#### **MSMWHS217**

Gas test atmospheres

## 2 Day Confined space training course - For workers & supervisors

This 2 day training course will cover all requirements to enable workers to enter confined spaces, to carry out standby duties, gas test atmospheres and to issue all workplace permits including confined space entry permits.

### Key Skills and Knowledge:

Confined Space Entry Supervisor Training course includes these 7 key units of competency:

- RIIWHS202E Enter and work in confined spaces
- MSMPER200 Work in accordance with an issued permit
- MSMPER202 Observe permit work
- MSMWHS217 Gas test atmospheres
- MSMWHS201 Conduct hazard analysis & RIIRIS201E Conduct local risk control
- MSMPER300 Issue work permits

### Duration & Delivery Options:

- Face-to-face: 2 days - 8 hours per day
- Blended learning: Online theory + face-to-face practical (ask our team for info)

There is no prerequisite for this course.

Course includes both theory and practical assessments.

### Certification and Outcomes:

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

# STATEMENT OF ATTAINMENT

# CONFINED SPACE SUPERVISOR & RESCUE

## 9 KEY UNITS OF COMPETENCY

### **RIIWHS202E**

*Enter and work in confined spaces*

### **MSMPER200**

*Work in accordance with an issued permit*

### **MSMPER202**

*Observe permit work as a spotter*

### **MSMWHS217**

*Gas test atmospheres*

### **MSMWHS201**

*Conduct hazard analysis*

### **RIIRIS201E**

*Conduct local risk control*

### **PUASAR025**

*Undertake confined space rescue*

### **MSMWHS216**

*Operate breathing apparatus*

### **MSMPER300**

*Issue work permits*

**RTO #41312**

Allow workers to operate in confined spaces, perform atmospheric monitoring, standby duties, use breathing apparatus, and conduct rescue operations.

# 3 DAY TRAINING

## 3 Day Confined space rescue training course - For workers & supervisors

This 3 day training course is for anyone who works in and around confined spaces and also requires to act as the standby operator and in the event of an emergency, carry out confined space rescue including the use of breathing apparatus.

### Key Skills and Knowledge:

Confined space worker/rescuer 3 day training course includes these 9 key units of competency:

- RIIWHS202E Enter and work in confined spaces
- MSMPER200 Work in accordance with an issued permit
- MSMPER202 Observe permit work
- MSMWHS217 Gas test atmospheres
- MSMWHS201 Conduct hazard analysis
- RIIRIS201E Conduct local risk control
- MSMPER300 Issue work permits
- MSMWHS216 Operate breathing apparatus
- PUASAR025 Undertake confined space rescue

### Duration & Delivery Options:

- Face-to-face: 3 days - 8 hours per day
- Blended learning: Online theory + face-to-face practical (ask our team for info)

There is no prerequisite for this course.

Course includes both theory and practical assessments.

### Certification and Outcomes

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

# GAS TEST ATMOSPHERES TRAINING

**RTO #41312**

*Will enable the operator to test atmospheric conditions in order to determine a safe atmosphere for workers.*

## 3 HOUR TRAINING

## STATEMENT OF ATTAINMENT

## CONTACT

US NOW

& QLD

### 1 KEY UNIT OF COMPETENCY

**MSMWHS217**

*Gas test atmospheres*

## Gas test atmospheres

Gas test atmospheres will enable the operator to test atmospheres using a range of testing equipment in order to determine a safe atmosphere for workers. The competency requires the operator to set up monitoring equipment through calibration and bump testing and safely take and interpret gas readings and take the appropriate actions.

### Key Skills and Knowledge:

Participants who complete the course will receive certification for the following nationally recognised unit of competency:

- MSMWHS217 Gas test atmospheres

### Duration & Delivery Options:

- Face-to-face: 3 hours

There is no prerequisite for this course.

Course includes both theory and practical assessments.

### Certification and Outcomes:

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312

### Why Choose Us?

Platinum Training provides both high-quality and practical training. Our experienced instructors deliver courses that are both entertaining and participatory. Our courses are designed to meet industry requirements and far surpass expectations, and they are accompanied by certification that is accepted on a national level.

# BREATHING APPARATUS TRAINING

**RTO #41312**

*This unit of competency covers the skills and knowledge to check, operate and maintain breathing apparatus*

STATEMENT  
OF  
ATTAINMENT

**4 HOUR TRAINING**

## 1 KEY UNIT OF COMPETENCY

### MSMWHS216

*Operate breathing apparatus will provide the skills to operators to check and safely use open circuit self contained breathing apparatus when atmospheres may pose a significant risk to safety during confined space operations.*

## Breathing apparatus training course

This course covers the skills and knowledge to check, operate, and maintain breathing apparatus for work in potentially hazardous atmospheres, such as confined spaces. It is also suitable for those who may need to use breathing apparatus in an emergency, including members of a confined space rescue team.

### Key Skills and Knowledge:

Breathing Apparatus training course includes one key unit of competency:

- MSMWHS216 – Operate breathing apparatus.

**Course includes theory and practical assessments;**

### Duration & Delivery Options:

- Face-to-face: 4 hours
- Blended learning: Online theory + face-to-face practical (ask our team for info)

There is no prerequisite for this course.

Course includes both theory and practical assessments.

***Note: Students MUST be clean shaven on the day of training - As per Australian Standards requirement***

### Certification and Outcomes:

Learners who successfully complete all training and assessment requirements will be issued with a Statement of Attainment - Issued by Ambition Training Pty Ltd - T/A Platinum Safety and Training - RTO # 41312
